

RENEWABLE ENERGY ENGINEER

REnergy (UK) Limited is seeking candidates for University Sponsorships in the renewable energy industry. This is an opportunity to join a company with extensive interests in wind and wave energy research.

The successful candidates will have a proven problem-solving ability, excellent mathematical and computer skills and be able to be an effective member of a team.

Qualifications will include a minimum of 5 GCSEs at grades 9 to 4 including English Maths and a Science and have 3 A Levels.

Salary. The starting salary will be £20,000 with prospects to significantly enhance this with experience.

The sponsorship will be for a degree in one of the following subjects:

- Environmental technology
- Energy engineering
- Earth sciences
- Renewable energy

On completion of your degree you will work 40 hours per week in office-based design or research jobs. There will also be a requirement to spend time on site on one of the range of company offshore wind farms

If you think you can make a long-term commitment to this sector and want to grow within the company please apply to Mr G Nash, Oldfield School, Kelston Road, Bath BA1 9AB, with an application form, CV and covering letter.
